HISTORICAL RECOGNITION

Historical recognition is a process that provides a means by which incident management personnel who have either:

- Documentation of previous ICS training, education, and experience in an ICS position(s); or
- Documentation of previous extensive on-the-job incident response experience,

may receive credit for that previous experience, training, or qualification(s) and be considered as meeting the minimum requirements of this guide in the categories of:

- Education;
- Training; and
- Experience

for an ICS position(s) until he/she has successfully completed the actual minimum requirements for that position. Historical Recognition does not apply to the categories of Physical/Medical Fitness, Currency, or qualification. The minimum requirements within those categories must be met regardless of any historical recognition process.

HISTORICAL RECOGNITION PROCESS

If an Authority Having Jurisdiction (AHJ) does not form a Qualification Committee to assist with the management of the overall qualifications process, AHJ's should give strong consideration to at least forming a committee for the purposes of reviewing and processing applications for Historical Recognition. Because of the time commitment involved and the potential for perceptions of favoritism and unequal treatment during the process, other ICS qualifications processes currently used by federal and state agencies that included a historical recognition provision used review committees to accomplish that process.

The AHJ should develop a process to provide for the following:

- Developing a method to provide for historical recognition when there is sufficient documentation
 available to substantiate the experience;
- Developing a standardized method for any individual to submit documentation of the experience and training for review by the AHJ or the appropriate review committee established by the AHJ;
- Developing a method to determine if the previous experience or training is appropriate for the
 position, keeping in mind the required criteria for the position and the competencies necessary for
 safe and successful performance;
- Providing for Historical Recognition only when the individual has most recently performed the
 position within the last five years;
- Requiring the individual meet all minimum requirements in this guide for a position if the individual seeks an ICS position other than the position he/she was historically recognized for;
- Encouraging all individuals who are historically recognized into a position to complete the minimum requirements for the positions within five years of being historically recognized.

INCIDENT MANAGEMENT SYSTEM POSITION TASK BOOK

Position Task Books (PTB) were developed for designated positions as described under the National Interagency Incident Management System (NIIMS) and have been incorporated into the National Incident Management System (NIMS). The position task book is used by the State of Indiana to qualify that the person to whom the task book belongs meets the standards recommended by the National Integration Center (NIC).

Each PTB lists the performance requirements (tasks) for the specific position in a format that allows a trainee to be evaluated against written guidelines. Successful performance of all tasks, as observed and recorded by a Qualified Evaluator, will result in a recommendation that the trainee be qualified in that position. Evaluation and confirmation of the individual's performance of all tasks may involve more than one evaluator and can occur on incidents, events, full scale exercises, and in other work situations. Designated PTBs require position performance during which the majority of required tasks are demonstrated on a single incident. It is important performance be critically evaluated and accurately recorded by each evaluator. All tasks must be evaluated. All bullet statements within a task that require an action (contain an action verb) MUST be demonstrated before that task can be signed off.

A brief list of responsibilities also appears below.

RESPONSIBILITIES:

- 1. The Agency Management is responsible for:
 - Selecting trainees based on the needs of their organization or area Incident Management Teams.
 - Providing opportunities for evaluation and/or making the trainee available for evaluation.
- 2. The **Individual** is responsible for:
 - Reviewing and understanding instructions in the PTB.
 - Identifying desired objectives/goals.
 - Providing background information on an evaluator.
 - Satisfactorily demonstrating completion of all tasks for an assigned position within three years.
 - Assuring the evaluation record is complete.
 - Notifying the local agency head when the PTB is completed and obtaining their signature recommending qualification.
- 3. The **Evaluator** is responsible for:
 - Being qualified and proficient in the position being evaluated.
 - Meeting with the trainee and determining past experience, current qualifications, and desired objectives/goals.
 - Reviewing tasks with the trainee.
 - Explaining to the trainee the evaluation procedures that will be utilized and which objectives may be attained.
 - Identifying tasks to be performed during the evaluation period.
 - Accurately evaluation and recording demonstrated performance of tasks. Dating and initializing completion of the task shall document satisfactory performance. Unsatisfactory performance shall be documented in the Evaluation Record.

- Completing the Evaluation Record found at the end of each PTB.
- 4. The **Final Evaluator** is responsible for signing the verification statement inside the front cover of the PTB when all tasks have been initialed.
- 5. The **Agency Head** or designee is responsible for:
 - Tracking progress of the trainee.
 - Identifying incident evaluation opportunities.
 - Identifying and assigning an evaluator that can provide a positive experience for the trainee, and make an accurate and honest appraisal of the trainee's performance.
 - Documenting the assignment.
 - Conducting progress reviews.
 - Conducting a closeout interview with the trainee and evaluator and assuring that documentation is proper and complete.

Competency 1: Assume position responsibilities

Description: Successfully assume role of Food Unit Leader and initiate position activities at the appropriate time according to the following behaviors.

INSTRUCTIONS FOR COMPLETING THE EVALUATION RECORD

There are four separate blocks allowing evaluations to be made. These evaluations may be made on incidents (may include preplanned events and full scale exercises), simulations in classroom, or in daily duties, depending on what the position task book indicates. This should be sufficient for qualification in the position if the individual is adequately prepared. If additional blocks are needed, a page can be copied from a blank task book and attached.

COMPLETE THESE ITEMS AT THE START OF THE EVALUATION PERIOD:

Evaluator's name, incident/office title, and agency: List the name of the Evaluator, his/her incident position or office title, and agency.

Evaluator's home agency, address, and phone: Self explanatory

#: The number next to the Evaluator's name in the upper left corner of the evaluation record identifies a particular experience or group of experiences. This number should be placed in the column labeled "Evaluation Record #" on the Qualification Record for each task performed satisfactorily. This number will enable reviewers of the complete Qualification Record to ascertain the qualifications of the different evaluators prior to making the appropriate signoff on the Qualification Record.

Location of Incident/Simulation: Identify the location where the tasks were performed by agency and office.

Incident Kind: Enter kind of incident, (e.g., hurricane, search and rescue, flood, preplanned event, full scale exercise, etc.).

COMPLETE THESE ITEMS AT THE END OF THE EVALUATION PERIOD:

Number and Type of Resource: Enter the number of resources and types assigned to the incident pertinent to the Trainee's task book position.

Duration: Enter inclusive dates during which the Trainee was evaluated. This block may indicate a span of time covering several small and similar incidents if the Trainee has been evaluated on that basis.

Recommendation: Check as appropriate and/or make comments regarding the future needs for development of this trainee.

Date: List the date the record is being completed.

Evaluator's initials: Initial here to authenticate your recommendations and to allow for comparison with initials in the Qualifications Record.

Evaluator's relevant qualification: List your qualification relevant to the trainee position you supervised.
